

White Rose > Home Learning – Year 3

Summer Term - Week 1 - Lessons 1-5

If the last two weeks' worth of Maths lessons have been followed, this week's lesson will follow on.

Since we follow White Rose in school, the children are familiar with the layout, presentation and style of maths used. The link above has the worksheets, answers and teaching videos for home learning this week.

For anyone is struggling, follow the link below and revise what should have been covered in Year 2 for fractions:

<https://whiterosemaths.com/homelearning/year-2/>

They may not need to complete all the tasks but following the videos in order will support the correct progression for them to develop an understanding.
