

Focus: words selected by you from the Year 3/4 word list

This spelling session is a revision session. You may have seen or worked on these words before and be confident that you know how to spell some of them.

This task is about making sure you are really confident and familiar with **all** the spellings on the list - for this you will be choosing which 20 words from the list you will focus on.

- 1) Cut up the words cards (Y6 English 28 Spelling word cards 2) and reorder into alphabetical order. You may choose to do this with all 100 words!
- 2) Choose 20 spellings that you feel least confident in spelling and write these out a number of times.
- 3) Create 20 sentences using the words you have chosen. In addition, you may try and write a sentence with as many of your chosen words as possible!

The sillier the better! 😊
