

## Web Link to Video Teaching

Go to: <https://whiterosemaths.com/homelearning/year-6/>

Select Summer Term - Week 2

The screenshot shows the White Rose Maths website interface. The top navigation bar includes links for Resources, Professional Development, Home Learning (highlighted), Who We Are, and News. A search bar and a Premium Resources Centre link are also present. On the left, a sidebar lists the curriculum structure: Week 1, Week 2, Summer Term - Week 1, and Summer Term - Week 2 (circled in red). The main content area displays 'Lesson 1 - Angles in special quadrilaterals'. It features a 'Flashback 4' section with three questions: 1) Work out the missing angle in the triangle (with a diagram showing angles of 70° and 58°, and a third angle marked with a question mark), 2) How many obtuse angles does this trapezium have? (with a diagram of a trapezium and a right-angled triangle), and 3) What is the ratio of squares to triangles? (with a diagram showing a 2x2 grid of squares and a triangle). To the right of the questions are two buttons: 'Get the Activity' and 'Get the Answers'. A right-hand sidebar lists the Home Learning menu, including Summer Term, Easter Fun, Home Learning - Early Years, and Home Learning - Year 1 through Year 8.

From here, you can watch the teaching video for each activity.

This screenshot is similar to the one above, showing the same lesson page. However, a video player overlay is visible in the bottom left corner, partially obscuring the 'Flashback 4' section. The video player shows a play button and a progress bar. A red arrow points from the text 'From here, you can watch the teaching video for each activity.' to the video player overlay. The rest of the page content, including the navigation bar, sidebar, and lesson details, remains the same.
